

Refund Timelines

Processing Time by Method

- Daraz Wallet credit: usually within 24-48 hours after refund approval.
- Credit/debit card refunds: 5-10 business days, depending on the issuing bank.
- Bank transfer refunds: 3-7 business days after approval.

What Affects Refund Speed

- How quickly the returned item is received and inspected.
- Bank processing times, which Daraz does not control once the refund is initiated on their end.
- Incomplete customer bank details, which can delay bank transfer refunds until corrected.

Checking Refund Status

- Customers can check refund status under 'My Orders' > 'Returns & Refunds', which shows each stage with a timestamp.
- If a refund is not received within the stated window, customers should contact Customer Support with the order ID and refund reference number.
